BETTER BUILT PRODUCTS USED WORLDWIDE

Since 1958 Par-Kan Company, LLC has been fabricating high-quality products from metal. With product lines in ground support equipment, agriculture, refuse and liquid recycling, customers have come to depend on our robust processes and unrivaled service.

Thanks to acquisitions in 2016 and 2018, Par-Kan now partners with sister companies GB Manufacturing/Fabrication and MWC-Kan to expand our capabilities to limitless capacity and our footprint in the Midwest as one of five plants in Indiana, Ohio and Nebraska. As part of the larger company, Par-Kan now offers product design and engineering support, a wide range of machining options, in-house tool and die, powder coating and a commitment to offer unique solutions to reduce costs, lead time, and improve quality.

PAR-KAN™
STRENGTH • QUALITY • SERVICE

PROUDLY MADE IN THE USA

WHO WE ARE AND WHY IT MATTERS

Par-Kan Company has been fabricating high quality products from metal since 1958 and has expanded our capabilities and capacity with a larger footprint in the Midwest. By utilizing our facilities located in Indiana, Nebraska and Ohio, we provide our clients throughout the world with the highest level of service along with industry leading on-time delivery.

STRENGTH

INDUSTRY LEADERS

As an industry leader of refuse solutions, Par-Kan builds tough products of high quality steel for tough jobs.

CAPACITY

Regardless the size of your order, Par-Kan has the capacity and equipment to reduce your overall lead time by utilizing our four manufacturing facilities across Indiana and Ohio.

ENGINEERING

Our in-house engineering team will design and develop unique or even custom solutions to solve any manufacturing challenge.

CERTIFIED MBE

Par-Kan is proud to be one of the few refuse container manufacturers in the industry to be a certified minority owned business.

QUALITY

CERTIFIED WELDERS

With certified welders across our four manufacturing facilities, we ensure strong, precision welds which stand the test of time.

QUALITY INSPECTIONS

In-house, full time quality inspectors help ensure that every piece of equipment that rolls out of our facilities meets both industry quality and safety standards.

POWDER COAT FINISH

Our advanced powder coat process delivers an exceptionally durable finish that stands up to the toughest conditions - resisting corrosion, chipping, and fading far better than traditional paint. Engineered for longevity and performance, our finishes not only protect your investment but also reflect our commitment to sustainability by eliminating harmful solvents and reducing environmental impact.

SERVICE

CUSTOMER SERVICE

Our in-house customer service team is dedicated to helping answer any questions or troubleshoot any issues you may have.

STOCKED PARTS

Par-Kan has a parts stocking program and dedicated warehouse that can ship most replacement parts within 24 hours of order to minimize equipment downtime.

ON-TIME DELIVERY

We understand that you have a tough job to do. Delivering quality products from a trusted name is our goal. Par-Kan rises to the top with a 95% on-time delivery rating and will be your trusted partner when timing and delivery are a number one priority.

OUR REFUSE PRODUCTS OVERVIEW

EASY DUMP

This versatile satellite dumper goes where the big trucks can't and is a must-have for any refuse collection fleet.

FRONT LOAD

Streamline commercial and multi-unit waste management with our efficient, high-volume collection systems.

REAR LOAD

Provide reliable waste solutions for residential and select commercial needs with our adaptable collection containers.

UTILITY CARTS

Our Utility Carts offer convenient, smaller-scale waste and recycling options for individual needs and tight spaces.

POLY CARTS

Equip residents with durable, user-friendly bins for seamless waste and recycling management.

POLY KANS

Deliver a robust and standardized solution for residential and commercial waste and recycling programs.

ROLL OFFS

Handle large-scale waste and debris from construction, demolition, and industrial projects efficiently.

SELF-DUMPING HOPPERS

These rugged containers are an efficient way to handle bulk materials, reduce manual labor, and improve safety.

LIQUID RECYCLING

Ensure the environmentally sound and efficient management of diverse liquid waste streams.

EASY DUMP

GOES WHERE THE BIG TRUCKS CAN'T

FOR MULTI-USE COLLECTION

Add versatility and efficiency to your waste fleet with the Easy Dump on your 3/4 or 1-ton pickups. This CDL-exempt solution does not replace larger trucks, but helps overcome driver shortages and provides cost-effective service. Easy Dump is a great addition for fleets or start ups alike.

EASY DUMP FEATURES

PROFITABILITY

Expand your market opportunity by utilizing Easy Dump for specialized services such as door-to-curb collection, recycling, organics, rural routes and much more!

VERSATILITY

Saves time and money with a non-CDL operator, less fuel, lower upkeep, and reduced emissions.

DURABILITY

Durable, powder-coated heavy-duty steel body with reinforced corners. Waterproof, self-contained dual cylinder electric hydraulic system with easy remote operation.

FLEXIBILITY

Use it for missed stops, parks, beaches, gated communities, narrow roads or paths, and anywhere weight restrictions apply. In addition to hauling trash, this unit is also perfect for organics recycling.

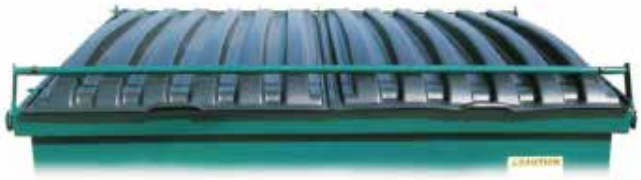
FRONT LOAD
REFUSE CONTAINERS

STREAMLINED FRONT LOAD COLLECTION

Since 1958, Par-Kan has been a leading provider of quality refuse solutions, and our front-load containers exemplify our commitment to engineered excellence. Built with heavy gauge steel for durable construction, these containers are ideal for commercial and public use where larger volumes of waste are common. To further protect your investment, all Par-Kan front-load containers feature a complete powder coat finish, inside and out, ensuring long-lasting performance.

FRONT LOAD PRODUCT FEATURES



- **Constructed of Top Grade Heavy Gauge Steel**
- **Butt Weld or Optional Wrap Weld**
- **Uniform, Tapered Design for Nest Stacking** – Reduces shipping cost!
- **Heavy-Duty UV Stabilized Poly Lids**
- **Swing-Away Lid Frame Assembly**
- **Solid Round Trunnion Bar**
- **Front Rub Rail** – Designed to strengthen and protect the container when dumping for longer container life.
- **Drain Plug**
- **ANSI Compatible**
- **Powder Coat Painted** Completely inside and out.
- **Warranty:** One Year Manufacturer's Warranty.

OPTIONAL EQUIPMENT

- Heavy-Duty Lift Hook (RL100–RL200 Containers).

UTILITY CARTS

BRAKE, TIRE & WIRE

REDUCE DOWNTIME WITH UTILITY CARTS

Beyond standard waste and recycling containers, Par-Kan offers a range of specialized utility carts designed to streamline specific tasks within your operations.

BRAKE CART

Optimize your maintenance procedures with the Par-Kan Brake Cart. This heavy-duty solution is specifically designed for the organized transport and storage of brake system components, ensuring mechanics have easy access to necessary parts for swift repairs and maintenance, minimizing vehicle downtime and maximizing fleet availability.

TIRE CART

Ensure the safe and efficient handling of your fleet's tires with the Par-Kan Tire Cart. This robust cart allows for the secure movement and organized storage of both new and used tires, streamlining tire changeovers and maintenance tasks, contributing to improved shop efficiency and safety.

WIRE CART

The Par-Kan Wire Cart offers a practical and organized solution for managing essential wiring, hydraulic hoses, and other spooled materials crucial for the upkeep of your vehicles. This durable cart ensures that these vital supplies are readily accessible, simplifying maintenance and repair work and contributing to reduced service times.

POLY CARTS
REAR & FRONT LOAD

RELIABLE & LIGHT WEIGHT PLASTIC CONTAINERS

Par-Kan's Poly Cart Containers offer a durable and user-friendly solution for residential and light commercial waste and recycling collection. Constructed from high-quality polyethylene, these lightweight yet robust carts are designed for long-lasting performance and ease of maneuverability, making waste management simpler and more efficient for both users and collection crews.

POLY CART FEATURES

- 100% virgin, high-density polyethylene body construction
- Stainless steel parts powder-coated for longevity
- Rotationally molded - highly durable in any environmental climate
- Maintenance free
- Scratch Resistant
- Containers empty freely and cleanly
- Quiet operation
- Recycled material lids
- Threaded drain holes - to prevent standing water

OPTIONAL EQUIPMENT

- Lid Locks
- Tow packages
- Steel feet
- Casters
- Four-position caster locks
- Caster brakes
- Custom containers and lid colors
- Bottom pockets for forklift operation

POLY KANS

POLY REFUSE COLLECTION

DURABLE CARTS FOR RUGGED USE

Built with Par-Kan's commitment to quality, our Poly Kans are designed for long-lasting performance and ease of use. Offered in versatile 95, 65, and 35-gallon capacities, these kans provide a robust and user-friendly solution for the collection and transport of waste and recyclables, making them a dependable choice for a variety of applications.

35 GALLON

MODEL	Edge 35G

BUILT FOR TODAY'S COLLECTION NEEDS

35, 65 & 95 GALLON

Sanitary, easy-open lift lip.

Increased durability with "double-pinned" lid attachment.

Unique, contoured body designed for automated lifting equipment.

Contoured lid reduces warp and water entrapment.

Fully sealed container means no leakage.

Corrosion-resistant hardware protects and increases durability.

Molded foot access and large handle make maneuvering easier, even with heavy loads in tighter places.

UV resistant plastic for long-term exposure to sunlight.

AVAILABLE COLORS

Containers are available in eight standard colors. Over 80 custom colors available upon request.

ROLL OFFS

MAXIMUM CAPACITY WASTE REMOVAL

At Par-Kan, roll-off containers are available in various lengths and sizes including angle/tub and square/rectangle options to accommodate your commercial or industrial waste collection needs and requirements.

SQUARE/RECTANGLE

DUMPERS
SELF-DUMPING HOPPERS

HIGH-PERFORMANCE DUMPING SOLUTIONS

Our Self-Dumping Hoppers are designed for efficient material handling and waste disposal in various industrial and commercial settings. Built with durable construction and user-friendly features, these hoppers make waste management safer and more convenient.

HOPPER PRODUCT FEATURES

STANDARD CONSTRUCTION

Robust Build: Made with 10 gauge construction for long-lasting durability and strength.

Safety Chain: Includes a safety chain to tie off on the fork mast for secure handling.

Positive Locking Mechanism: Ensures the hopper will not jump off the track during operation.

Fork Pockets: Features 3-1/2”H x 8”W fork pockets for easy and secure lifting.

Stackable Design: Hoppers ranging from 1/4 to 2 yards are stackable for efficient storage.

Casters: Equipped with 6” diameter polyolefin casters with greaseable roller bearings on 1-3 yard containers (2 swivel and 2 rigid) for easy movement.

Ready to Use: Delivered completely assembled and ready for immediate use, including caution/warning decals, D.O.T. reflective tape, and any customer-supplied decals required.

IDEAL FOR:

- Manufacturing plants
- Warehouses
- Construction sites
- Recycling facilities
- Waste management services

LIQUID RECYCLING

INDOOR & OUTDOOR EQUIPMENT

DESIGNED WITH THE RIGHT FEATURES TO FLOW WITH YOUR PROFITS

Managing diverse liquid waste streams requires specialized solutions, and our comprehensive recycling program handles them all. From poly and steel lids to various gallon containers and grease cubes, we provide the efficient, precise processes needed to responsibly recycle challenging materials, ensuring proper disposal and supporting your environmental goals.

POLY LIDS

Poly Lids are available to fit all Par-Kan grease container sizes, including 106gal, 208gal, 294gal, & 400gal.

OPTIONS:

- 2" x 2" Rebar Like Mesh Screen
- 1" x 1" Rebar Like Mesh Screen
- Side Locks
- Fill Lid Lock
- Embossed Logo Lids
- End Dump
- Center Dump

STEEL LIDS

Steel Lids are available to fit all Par-Kan grease container sizes, including 106gal, 208gal, 294gal, & 400gal.

OPTIONS:

- 2" x 2" Rebar Like Mesh Screen
- 1" x 1" Rebar Like Mesh Screen
- Side Locks
- Fill Lid Lock
- Fill Lid Padlock Cover

HD THEFT DETERRENT

STEEL LIDS

HD Theft Deterrent Steel Lids are made to fit only the 208gal and 294gal container sizes.

OPTIONS:

- Pump Tank Lid
- Dump Tank Lid
- Screen Drip Tray
